

**MONTEREY
LIGHT BROWN APPLE MOTH
PUBLIC INFORMATION MEETING**

**April 30th, 2008
7:15 pm**

**Monterey City Hall
Council Chambers
580 Pacific St, (Corner Madison St.)
Monterey, CA**

**(This event is NOT sponsored by the City of Monterey
though we thank them for their generous donation of the space.)**

**The State of California's Light Brown Apple Moth eradication program
has become one of the most timely, controversial and
multifaceted issues facing our peninsula.**

Come deepen your understanding of the issue. Hear local experts such as...

**Bill Monning, Attorney/Law Professor
David Dilworth, Founder of Hope (Helping Our Peninsula's Environment)
Roy Upton, Citizens For Health Representative
Mike Lynberg, Author of Ongoing Reports/Articles on Spray-Related Illnesses
Dr Doug Hulstedt, Pediatrician
and more...**

Topics covered:

- LBAM international trade quarantines**
- How new agreements could change the course of the aerial eradication plan;**
- Perspectives on historical agricultural exemptions and previous pesticide disputes;**
- The California Environmental Quality Act and current lawsuits against the CDFA;**
- Proposed State Senate and Assembly bills designed to regulate aerial treatment;**
- Health implications, etc.**

Open to all. Space is limited.
